**Jeffrey W. Smith**

**775-329-4855**

**rii@railroadIndustries.com**

## **Experience**

*Railroad Industries Incorporated, Associate*  
Reno, NV

2005 – Present

Mr. Smith performs rail track related consulting work for RII projects. Work includes track inspections, rehabilitation and upgrade costing, construction estimating and materials sourcing. Mr. Smith also provides materials costing and valuations for labor, maintenance of way budgets, scheduling and road worker's safety training and facility audits.

*J.W Smith Railroad Contractor's, President*

2003-Present

Mr. Smith started this company in 2003 and has since built it to be a thriving company. Work includes all aspects of railroad construction – roadbed, track work, construction inspection.

*Mid-America Locomotive & Car Repair, Vice President*  
Consolidated Railroad Contractor's

1998-2003

Mr. Smith was the Vice president and partner for Mid-America Locomotive. Work included locomotive and railcar inspections, repair work and rehabilitation. He started Consolidated Railroad Contractors as an extension of this company in 1998 and developed it into a successful company. Work included all aspects of track construction and repair.

*Hoosier Southern Railroad, Operations Manager*

1994-1998

Mr. Smith managed everything from building track to running trains and crews on various jobs. He was a supervisor of locomotive engineers, and conducted safety meetings with employees on a regular basis. He also trained and tested employees on the Railway Protection Program.

*Indiana Hi-Rail Corporation, Foreman and Supervisor*

1985-1994

Mr. Smith supervised 500 miles of Short Line railroad over four states for this maintenance-of-way company. He supervised crews in different towns of each state, and communicated with them on a daily basis for quality control and work dispatching.

## ***Key Personnel – Jeffrey W. Smith***
